Starr Ranch Junior Biologists
Spring 2020

*Migrating Birds at Starr Ranch*

Children ages 8 - 13 will spend four mornings with Starr Ranch biologists studying spring songbird migration. Starr Ranch is a 4000-acre Audubon nature preserve adjacent to Dove Canyon and Coto de Caza.

- Learn about Starr Ranch spring migration by participating in scientific research.
- Assist our biologists with songbird surveys.
- Learn different techniques biologists use to learn about migration.
